

Lighting busbar double junction box

Lighting Busbar Canalis KB is the perfect solution to fit numerous light fittings on ceilings, in small- to medium-height buildings, such as workshops, warehouses, garages or supermarkets.

The lighting fixtures are then connected to the output unit with a plug. The Lighting Busbar can be quickly removed, moved and reused whenever needed at any point.

The Standard lists the mechanical and electrical requirements with which the busbar trunking must comply and provides the methods for verifying these requirements.

Powerbus construction consists of a lightweight electrical grade, all-aluminum housing with silver-plated copper conductor bars for maximum electrical efficiency. The total product offering includes straight ...
