

List of French Micro Module Manufacturers

EM Microelectronic is a semiconductor manufacturer specialized in the design and production of ultra-low power, low voltage integrated circuits (IC) for battery-operated and field-powered applications ...

Discover top French electronics companies in 2025 and how Highleap supports them with advanced PCB manufacturing and reliable global assembly services.

FAMES is supported by 43 companies across the value chain, including materials providers and equipment manufacturers, EDAs, IDMs, system houses and end users, as well as the ...

Continue reading to discover the top semiconductor companies in France. 1. Cortus SAS, founded in 2005 and based in Mauguio, Occitanie, France, is a fabless semiconductor manufacturer that ...

Founded in 2002, SIMCom has been committed to providing a variety of cellular wireless modules and solutions including 5G, 4G, LPWA, LTE-A, smart module, automotive module, 3G, 2G and GNSS for ...

Established in 1958, ROHM provides IC and discrete semiconductors characterized by outstanding quality and reliability for a broad range of markets, including automotive, industrial and consumer ...

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design and manufacture ICs in-house and may also manufacture designs from design-only (fabless firms), or by pure play foundries that manufacture designs from fabless companies and do not design their own ICs. Some pure play foundries like TSMC offer IC design services, and others, like Samsung, design and ma...

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured.

Detailed info and reviews on 12 top Semiconductors companies and startups in France in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

EM Microelectronic is a semiconductor manufacturer specialized in the design and production of ultra-low power, low voltage integrated circuits (IC) for battery ...
