

ColorPro®; Identification Technology ClearCurve®; OM2, OM3, and OM4 fibers are also available in colored and ringmarked variants, enabled by ColorPro®; identification technology. Corning fibers with ...

These fiber optic cables come with connectors and zip cord jackets that are OFNR (riser-rated), OFNP (plenum-rated), or LSZH (riser-rated) and are 100% factory-tested. Our cable assemblies are ...

Mouser offers inventory, pricing, & datasheets for OM3 Fiber Optic Cables.

Multimode OM3 Cable-- Multimode cable is often used to transmit data over short distances, such as within buildings and local area networks (LANs). It has a large core diameter, so it's easier to ...

Tight-buffered indoor distribution cable designed for intrabuilding backbone runs.

OM3 and OM4 fiber optic cables are typically used in data center cabling environments, supporting the transmission of 10G or even 40/100G high-speed Ethernet paths. The IEEE802.3ba40/100G ...

Amphenol OM3 50-Micron (50/125) Laser Optimized Multimode fiber optic patch cables combine scalable 10-Gig performance and backwards compatibility with legacy equipment. ...

FS offers OM3 multimode fiber optic patch cables 50/125 with bend insensitive fiber design that is optimal for 10G fiber optic cabling with ultra low link loss.

In 2003, the OM3 fiber type was standardized and is closely linked to the IEEE 802.3 10GbE Ethernet standard. It has a core diameter of 50  $\mu$ m and a modal bandwidth of 2000 MHz/km.

Fiber Cable Description: OM3 LC to ST Fiber Cable 2 Meter | OFNR, 10 Gigabit, Duplex, Laser Optimized Multimode Fiber (LOMMF), Jumper Cord. Corning 50/125um optical fiber core/cladding.
