

The LightCONEX active blind-mate optical interconnect is a revolutionary solution for OpenVPX systems that includes a fixed, plug-in module connector and a floating backplane connector compatible with ...

After more than 20 years of hard work, O-Net Technology has grown into the world's largest supplier of optical communication components, modules and subsystems, and has taken the lead in multiple ...

Highly configurable, high-frequency RF ganged solution with blind mate module using size 20 or size 16 contacts, .047" cable assembly, or MT ferrule slot in a space saving, multi-port block.

The Light CONEX® active blind mate optical interconnect is a revolutionary solution for VPX systems that includes a fixed plug-in module connector and a floating backplane connector compatible with ...

Copper Connectivity and xDSL Outside Plant Copper Splice Connectors MS2(TM) Super Mate Module Find a Distributor

Our blind mate fiber optics consists of a module connector with an integrated optical transceiver and a backplane connector. These products require no cables on the module and saves board space due ...

Open.Tech specializes in providing custom backplane assemblies with a focus on high-speed, high-density components that power them. Our expertise includes the design and manufacture of critical ...

Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

CO2 and Fiber Optic laser optics and consumables--greatly expanded selection, with over 2,100 competitively priced parts available to order! Major credit cards accepted. Special Order. In Stock. ...

The LightCONEX active blind-mate optical interconnect is a revolutionary solution for VPX systems that includes a fixed, plug-in module connector and a floating backplane connector compatible with ...
