

Mexico Temperature Measuring Optical Cable Installation Manufacturer

Our fiber optic sensor temperature measurement solutions provide enhanced visibility into your process, allowing you to detect problems before major catastrophic events occur.

Recognized as a leading developer and manufacturer of fiber optic temperature sensing and partial discharge monitoring products, providing solutions for a multitude of industrial applications.

Temperature Sensors - Power Generation Temperature Sensors - Furnace & Autoclave Temperature Sensors - Semiconductor Mineral Insulated Cable Mounting Methods Special Applications ...

Furukawa Electric Fiber and Cable, OFS and Furukawa Electric LatAm are now Lightera. Lightera isn't just about connectivity, it's about empowering industries, advancing technology, and improving lives ...

Distribuidor de productos para la instalación de redes de Fibra Óptica, Telecomunicaciones y Cableado Estructurado en México.

A one-stop shop for customised temperature monitoring systems, with a wide selection of transformer temperature controllers and fluorescent fibre optic temperature measurement devices, we have the ...

El cable DiTemp se usa en una amplia gama de aplicaciones que requieren detección de temperatura distribuida, como la monitorización de la temperatura en estructuras masivas, detección de fugas en ...

High accuracy Optical Time Domain Reflectometer (OTDR) is to test optical transmission performance. Verify cable reliability under the tension in installing and long time overhead application. Verify cable ...

Luna Distributed Temperature Sensing (DTS) systems are ideal for temperature monitoring over long distances. It is robust, highly reliable and cost-effective.

The company specializes in measurement and testing equipment for fiber optic communications, offering products like fusion splicers and optical cutters, as well as services such as fiber optic link ...
