

The small form-factor pluggable (SFP) is a compact, hot-pluggable transceiver used for both telecommunication and data communications applications. Distance from 100M to 120KM.

Fibrecross offers high-performance 40G QSFP+ optical transceiver modules, designed for seamless integration into data centers, enterprise networks, and high-performance computing environments. ...

Direct OEM/ODM manufacturing of 40G QSFP+ and 50G SFP56/QSFP28 transceivers for 5G fronthaul & enterprise networks. 100% tested & MSA-compliant.

As a leading optical transceiver manufacturer, BWNFiber SFP ensures your network infrastructure operates at peak performance. Choose us for premium OEM and ODM connectivity solutions.

The FIBCONET SFP+ modules give you a wide variety of Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.

FS provides 1/2/4G transceivers modules in SFP form factor, supporting transmission distances from 100m to 120km over SMF/MMF fiber and enabling low power and ...

Featured with low power consumption, the SFP transceiver module provides a cost-efficient solution via using dual fiber solution for Gigabit Ethernet applications.

For high-speed connectivity, our 10G SFP+ Optical Transceiver Modules stand out with their exceptional performance across various networking environments. These modules deliver reliable data transfer ...

SULITON provides various SFP Transceivers compatible with various SFP switches (such as CISCO, HUAWEI, ZTE, Juniper, Dell, Edge-Core and etc), as well as the most competitive prices and 7*24 ...

Discover professional OEM & ODM services for fiber SFP Modules. From customized optical transceiver design to ready-made rebranding solutions, we deliver high-quality, certified, and ...
