

Fiber Optic Cable Types Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to ...

Meet all of your fiber optic cable assembly needs in full with our extensive line of trunk assemblies, breakout harnesses, patch cords, interconnects, and pigtails.

Our active optical cable assembly portfolio provides greater cable flexibility and longer reach, as compared to both traditional passive copper solutions and emerging active copper (ACC/AEC) ...

Our process engineers have perfected termination techniques for all types of specialty cable designs, including ribbon fiber, high-fiber count and ruggedized. We support most industry standard connector ...

We offer a full range of fiber optic cable assemblies including fiber jumpers, connectorized assemblies, highly complex breakout assemblies, long length assemblies and fiber harnessing on racks, trays or ...

Pre-terminated Cable Assemblies - AFL fiber optic cable assemblies include connectorized, pigtails, jumpers, simplex, duplex, high fiber count, node cables and MPO assemblies.

Simplify fiber optic connection and termination with Leviton preterminated fiber cable assemblies. Choose from a wide selection of patch cords, and take advantage of our OPT-X(TM) Unity Ultra Low ...

Designed for use in the network access and drop cable portions of a preconnectorized network, hardened OptiTap and OptiTip connectors make installations faster, easier, and less costly.

MMC Cable Assemblies and Adapters are available with 16 or 24 fibers, providing higher cabling port density and low-loss performance in a compact design to support high-bandwidth applications.

As a leading supplier of advanced fiber optic components, Molex offers an extensive selection of optical cable assembly solutions. Options include a variety of cable assemblies, adapters and receptacles ...
