

Discover the mechanical engineering behind a high-speed 5G optical module pull ring stamping line. Learn how horizontal decoilers and roll feeders maximize SPM.

For a conventional optical module, we can easily judge the wavelength of the optical module from the color of the latch ring. For example, the black pull ring represents 850nm, and the ...

The utility model provides a pull-ring unlocking structure of an optical module, which integrates an upper cover and a sliding block into an integral structure, is quick and convenient to...

Sheet Metal Pull Wrap Ring for Optical Module, Find Details and Price about Steel Sheet Metal Cutting Sheet Metal from Sheet Metal Pull Wrap Ring for Optical Module - Shenzhen Aoli Casting Hardware ...

Since established in 2002, Shenzhen Aoli Casting Hardware Products Co., Ltd has been grown from a professional zinc alloy die-casting manufacturer to a professional enterprise engaged in the research, ...

SFP optical modules usually support hot-swap, optical module insertion and removal with the SFP cage has an unlocking action, the current mainstream two unlocking methods are sunken ...

The invention discloses an unlocking mechanism and method for a pull ring of an optical module.

The optical module pull ring unlocking mechanism and method of the present invention will be described in more detail below in conjunction with schematic diagrams, wherein a preferred ...

Among them, the color of the pull ring corresponding to 850nm of the Gigabit SFP module is black, the color of the pull ring corresponding to 1310nm is blue, and the color of the pull ring of 1490nm is ...

Their main function is to identify the type, wavelength, and function, allowing technicians to quickly determine its type and use case without removing the optical module.
