

Optical power meter returns to factory price

NF-908 series contains an optical power meter for fiber optic cables and a continuity tester for RJ45 network cables. For breaks and bending on a fiber optic cable, we have NF-908L Visual Fault ...

The ZOOM 2 can store reference values for each wavelength to be used for optical loss measurements, and can display measurements in dBm, dB, and microwatts. The on-screen battery capacity indicator ...

WL-M Series Optical Power Meter is a kind of OPM that can ...

We offer return-to-factory, fixed-rate repair services for all VIAVI test equipment. Fixed-rate repair provides the best turnaround time, streamlining the overall repair process and creating a very ...

AFL's OPM5 and OPM4 Optical Power Meters for accurate fiber optic testing. Featuring Wave ID, rugged design, and compatibility with various networks.

FOPM-205 PON Optical Power Meter As the industry's advanced PON-specific power meter, FOPM-205 PON Power Meter is specifically intended for FTTH and FTTP systems. It is capable to measure all ...

Send us your information to receive a customized quote from our dedicated customer service team. The Model 1830C Power Meter is a high-resolution autoranging picoammeter compatible with all of ...

WL-M Series Optical Power Meter is a kind of OPM that can measure six different wavelengths. It is suitable for acceptance of optical cable engineering, maintenance and inspection ...

This portable tester measures return loss and output power, supports multiple wavelengths, and stores up to 500 measurement items for easy access.

Discover optical power meter price deals with CE-certified fiber optic testers for FTTH, 1310/1550nm wavelength support, 0.01dB resolution.

Find instruments from leading manufacturers such as Thorlabs, Newport, and Ophir. How much do optical detectors and power meters cost? Prices for new systems typically range from \$1,000 to ...
