

# Outdoor 2-core optical cable specifications

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Belden provides the information and specifications herein on an "ASIS" basis, with no representations or warranties, whether express, statutory or implied.

CommScope outside plant fiber optic cables are meticulously designed to withstand the rigors of outdoor environments while ensuring superior performance and broadband connectivity.

Fiber optic cables for outdoor applications are engineered to withstand the more demanding conditions seen outside, from environmental extremes to mechanical forces.

feature a sub-unit design that simplifies fiber identification, provides eas access and routing of the fibers. It also increases cable durability with a dielectric central strength member. Opti-Core™; Fiber Optic ...

Specifications are correct at time of printing and subject to change or alteration without notice.

These cables are designed to meet both the rigorous environment of the outdoors but can also be routed indoors, where flame-rating requirements also apply. This type of cable eliminates the need ...

This cable offers good mechanical environmental characteristics and the Anti-UV characteristics meet the requirements of the FTTH standards. Our fiber optic cables are factory tested complying with the ...

OPTIC FIBER CABLES - 2-CORE FTTH D-Link 2 Core FTTH Fiber Cable is an enhanced performance FTTH solution, constructed with two single mode/bend sensitive fibers (ITU-TG657A/G652D), ...

FTTH outdoor drop cable is constructed with two single mode fiber. The cable is protected by a dielectric strength member made of fiberglass reinforced plastic (FRP), steel wire and a LSZH outer jacket.
