

Price of Cuban High-Temperature Temperature Measuring Optical Cable

High temperature cables are used in areas where both working temperatures and ambient temperatures are too high. They are made with a wide range of conductors, insulating materials and screening ...

High-definition temperature sensing based on the natural Rayleigh backscatter in optical fiber delivers a virtually continuous line of temperature measurements with sub-millimeter spatial resolution. Learn ...

As the distributed temperature sensing fiber optic cable (DTS Cable) allows temperature measurements to be taken along the entire length of the cable, temperature measurements can also ...

Our Products Temperature Transmitters CSA/UL/Marine certified fiber optic temperature transmitters for industrial applications.

Our Intemp 250 cables, sometimes referred to as a high performance glass fibre braid cable or mica glass tape cable, can withstand temperatures of up to 250°C whilst our mineral insulated cables are ...

TS series fiber optic temperature probes offer immunity to RF and microwave radiation along with wide temperature range, intrinsic safety and non-invasive use. The fiber optic temperature probes can ...

Based on the principle of Raman scattering effect, Fuzhou Yinuo Technology has developed a technology for installing distributed fiber optic temperature measurement in power cables, which can ...

The standard operating range of the OTG-A is from -40 °C to +250 °C. Higher temperature ranges up to 300 °C are available upon request. The OTG-A is made with industry standard optical fiber and is ...

Purchase cost-effective and accurate temperature measuring cable at Alibaba . These easy-to-read temperature measures cable record humidity without interference.

Find your high-temperature optical cable easily amongst the 11 products from the leading brands (Avantes, Endevco, Pavone sistemi, ...) on DirectIndustry, the industry specialist for your professional ...
