Professional optical power meter red light pen

The Visual Fault Locator (VFL) Pen has a visible red light source centered on 650nm. Tool sends visible light over a fiber strand with a 10mW power, good enough to reach distances of up to 10Km.

Optical Power Meter:1. Mini and exquisite: the body design conforms to the requirements of ergonomics, and the size is small, easy to store in the pocket, clip on the clothes, and carry it with you2. 2.5mm ...

Equipped with an RJ45 test feature, our versatile Optical Power Meter allows you to effortlessly measure optical power levels in network cables, ensuring efficient communication.

Featuring a red light pen for locating faults in fiber optic cables, this tool offers a precise and reliable solution for field engineers and technicians. Its high-precision features and ability to test fibers up to ...

Whether you are a professional technician or an DIY enthusiast, this power meter provides a reliable and convenient solution for all your optical fiber testing needs.

It allows for easy identification of live optical fibers without interruption, making it an ideal choice for professional fiber testing and maintenance. To better ensure the safety of your goods, professional, ...

Find many great new & used options and get the best deals for Optical Power Meter Red Light Pen 4 in 1 High Precision Optical Fiber Pen New at the best online prices at eBay! Free ...

This is simply a movable laboratory for fiber optic engineers! Red light + optical power dual-core drive, accurate and efficient!

The Y3 Handheld Optical Power Meter & Red Light Pen All-in-One Series is a professional tool designed for continuous optical signal power measurement and fiber continuity testing. ...

The Y3 Optical Power Meter with Built-in VFL is an efficient 2-in-1 testing tool combining a high-accuracy optical power meter with a 650nm red light visual fault locator. Designed for fiber professionals, it ...
