Rugged industrial-grade RS232 / RS485 / RS422 to fiber optic converter. Transmits serial data (RS232, RS485 or RS422) over long distances through fiber links (single-mode: 25 miles or 40 km).

The serial to fiber optic converter supports asynchronous serial RS232 or RS485 or RS422 communications through fiber optic bi-directional links. Operates reliably from 300 to 128K baud.

This rs485 to fiber optic converter is particularly suitable for banks, power systems, and departments and systems with special requirements for electromagnetic interference environments.

Get the best deals on rs485 cable when you shop the largest online selection at eBay . Free shipping on many items | Browse your favorite brands | affordable prices.

Selecting the right RS485 to fiber optic converter requires evaluating technical, financial, and operational criteria aligned with B2B procurement goals. A structured approach ensures optimal value and ...

These Optic Fiber devices are designed to extend the RS485 or/and RS232 using the optic fibers. These devices are independent from the serial protocol and they are adapted for Modbus, Modbus+ ...

R.E.Smith serial communication products is your rs485 authority for converters, repeaters, microprocessors, fiber optics, nodes and networks
