

The FiberMania 25G BiDi SFP28 80KM optical transceiver is a high-performance module designed for long-reach, single-fiber bidirectional transmission over standard G.652 single-mode fiber.

This series of products uses a single single-mode optical fiber for transmission, the center wavelength is 1270nm/1330nm, the distance can reach up to 10km or 30km, and it supports industrial-grade ...

This RoHS-compliant JFOPT SFP28 BIDI transceiver delivers 25.78Gbps over 10km using single-fiber bidirectional technology (1270/1330nm). Complies with SFF-8472/8432 for reliable Ethernet ...

For better user experience, we highly recommend you to update your device to ...

The Cisco 10/25GBASE-LR Module supports a link length of 10 kilometers on standard Single-Mode Fiber (SMF) G.652 at both 10G and 25G. The module requires RS-FEC on the host ...

For better user experience, we highly recommend you to update your device to the latest firmware asap.
*Product performance is based on testing in a controlled environment. Your results may vary due to ...

This bi-directional 25G SFP28 transceiver enables high-speed 25.78Gbps data transmission over a simplex of single-mode fiber, effectively doubling fiber infrastructure capacity.

Maximize single fiber value with bidirectional (1270nm/1310nm) SFP28 25G signals. Extended signal reach of up to 40km is perfect for use in 5G wireless radio heads

The 25G BiDi SFP28 80KM optical transceiver is a high-performance module designed for long-reach, single-fiber bidirectional transmission over standard G.652 single-mode fiber.

Our EDGEOPTIC BIDI-25G-SFP28-20BI is a multi-vendor compatible industrial-grade 25G BiDi SFP28 single-fiber optical module designed for extended-reach 25 Gigabit Ethernet applications in harsh ...

With low power consumption, backward compatibility with 10G infrastructure, and future-proof scalability, the 25G BiDi SFP28 transceiver delivers a cost-effective, space-saving solution for high-speed, long ...
