

Single-pole overhead optical distribution box

Explore optical distribution frames (ODF) with efficient distributed chassis solutions at CommScope

It integrates fiber splicing, splitting, distribution, storage, and cable management within a single, rugged enclosure, providing reliable protection for outdoor FTTx deployments.

It provides a secure point for splicing, branching, distributing, straight-through, or fiber optic termination, preventing environmental hazards such as dust, moisture, water, or UV rays when used outdoors.

Explore reliable FTTH terminal boxes for secure fiber termination and distribution. Wall-mounted design, robust build, for home and industrial optical networks.

The Corning® Optical Distribution Frame is optimized for high-density cross-connect applications.

Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. The distribution box is sealed adopts buckle + two screw type structural seals, and the left and right ...

Application Description: Optical Distribution Point ODP Box provides a connection point between distribution cables and drop cables at the subscriber access point in fiber optic network.

Large capacity weather-resistant cabinets designed to protect fiber optic splices in both buried and aerial distribution systems.

Optical Distribution Box (ODB-96): This outdoor-rated wall mount enclosure is designed for FTTx networks in single dwelling, multi-dwelling and multi-tenant applications for up to 96 subscribers.

We offer a wide range of 1-24 core FDB boxes and ODF cabinets for indoor/outdoor FTTX deployment. Durable, IP65 rated, and easy to install. Browse our models and get a wholesale quote.
