

The 200G OTN Muxponder supports standardized mapping, multiplexing and transportation of services over one or two OTU4 line signals ...

A single port can stably transmit 200G-rate services. It is mainly used in the core layer and convergence layer network of national optical network backbone lines, operator MAN, data center interconnection ...

The D710 Series provides a cost-effective 200G solution for short haul and access networks, incorporating AES-256 Layer-1 encryption. It is suitable for Data Center Interconnection, Metro ...

The 200G OTN Muxponder (MXP200GOTN) provides mapping and multiplexing for multi-service 10G to 100G client services to either 100G or 200G coherent line signals for the XTM Series of packet ...

1U chassis with 4 slices, each transporting 200G/300G/400G over single wavelength. Interoperable with third party switches or routers.

The 200G OTN Muxponder supports standardized mapping, multiplexing and transportation of services over one or two OTU4 line signals according to ITU-T G.709 standards.

M2H20OTN is a high density 1U height 200G OTN muxponder, it adopts the advanced technology and ASIC chip, and it is fully compliant with domestic and international related standards (such as ITU-T ...

The HTN6800-M2H20 is a 200G OTN Transponder/Muxponder board capable of packaging and de-packaging functions from 100G/40G/10G services to OTUC2. The client-side port allows access to 2 ...

The D710 Series provides a cost-effective 200G solution for short haul and access ...

To achieve massive information interaction and meet the demand for ultra-high speed and ultra-bandwidth data center interconnection (DCI), QSPTEK has launched the 200G transponder - a ...

Product Description Telecom carriers operating legacy core routers and dense OTN transponders require optical modules that match their heavy-duty chassis specifications. The Custom 200GBASE ...

To achieve massive information interaction and meet the demand for ultra-high speed and ultra-bandwidth data center interconnection (DCI), QSPTEK has ...
