

VIAVI offers the industry's most complete range of optical attenuators for installation and maintenance of singlemode and multimode fibers and advanced, photonic-layer solutions for lab and production ...

Upgrade testing accuracy with attenuator featuring 65 dB max attenuation, 1310-1550 nm calibration, 1 nm increment, and a rugged, compact design. Modernize optical testing with Variable Attenuator with ...

Our SM fixed optical attenuators are fiber connectors that can be attached to an FC/PC or FC/APC SM fiber patch cable. We also offer variable optical attenuators for MM fibers with FC/PC or SMA ...

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

This optical attenuators buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

OZ Optics offers a broad range of both variable and fixed attenuators having key competitive advantages. All of our attenuators operate over the two standard wavelength bands, the C-Band and ...

A 24-channel variable optical attenuator array with a compact size of 15 × 10 mm² is demonstrated using silica-based waveguides with 2.0% refractive index difference.

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

An optical attenuator, or fiber optic attenuator, is a device used to reduce the power level of an optical signal, either in free space or in an optical fiber. The basic types of optical attenuators are fixed, step ...

Complete guide to optical attenuators: fixed, stepwise & continuous types. Learn gap-loss, absorptive & reflective principles plus attenuation calculations.
