

South Asia CE Certified OSFP Optical Module SFP

Founded in July 1998, APAC Opto Electronics Inc. is the leading manufacturer of high performance fiber optical transmission components for Local Area Networks(LANs), Wide Area Networks(WANs), ...

By 2010, we launched 2G/4G SFP products, gradually reinforcing our capabilities in this segment. In 2012, we further expanded into modules with the introduction of 8G SFP, 10G SFP/XFP, 40G Q ...

SFP's are Optical modules and also referred to as a typically hot-pluggable optical transceiver used in high-bandwidth data communications applications.

Our technical expertise in R& D runs deep with manufacturing process development expertise and highly specialized engineering teams based around the globe -- ...

Formerica Optoelectronics Inc. - Manufacturer of Optical Transceiver, SFP Transceiver, SFP, SFF, Transceiver, Optoelectronics, DVI Extender, Optical Subassembly, Fiber-Optics Components, 10G ...

Our optical modules feature traditional DPO, low-power LRO, LPO, and Active Loopback designs for testing, and support data rates from 10G up to 1.6T across a wide range of package types.

Our OEM product is 100% compatible with Cisco, HP series, Extreme, Juniper, Arista, Alcatel, Nokia, Mellanox, Intel, Fortinet and many other major networking brands on the market. We also have strict ...

Shenzhen Sopto Technology Co., Ltd has its own fiber optical module production line, which can independently complete the R& D and production of various fiber optical modules to meet market needs.

Hi-Optel Technology is a global leader in optical transceiver design and manufacturing. We deliver a full portfolio from 155Mb/s to 800Gb/s, serving telecom, data centers, and enterprises worldwide.

Our technical expertise in R& D runs deep with manufacturing process development expertise and highly specialized engineering teams based around the globe -- experts in optoelectronic devices, optical ...
