

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

ABS splitter provides stable, low-loss signal distribution in fiber networks. Ideal for FTTH, PON, and data systems needing durable PLC splitters.

The optical fiber splitter divides the fiber optic light into numerous sections at a specific ratio. The PLC splitter takes minimal distortion during usage due to its small form and bending insensitive cables, ...

PLC Fiber Splitter Solutions for FTTH Networks Low insertion loss, high uniformity, and stable optical performance for telecom operators, FTTH deployments, ODN networks, and data centers.

The Splitter Modules utilize PLC chips manufactured with Plasma Chemical Vapor Deposition (P-CVD) technology, and its patented fabrication process for providing stable optical specifications.

HeyOptics PLC Fiber Splitters range from Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1x2 1x4 1x8 1x16 1x32 1x64 light distribution, with low IL and PDL for high-reliability.

We have extensive experience in PLC Splitter manufacturing and supply, delivering high-quality products with stable lead times to serve customers worldwide. Bare fiber splitter is a type of ODN ...

Reliable rack mount PLC splitter manufacturer, our fiber optic PLC splitters are available in 19" rack mount, ABS box, 1X N blockless, bare fiber types and are supplied worldwide.

Spring Optical provides PLC splitters for FTTH and GPON networks, including LGX cassette, ABS, rack mount and MPO types with low loss and high stability.

This section provides an overview for plc splitters as well as their applications and principles. Also, please take a look at the list of 54 plc splitter manufacturers and their company rankings.
