

The world's highest-performance, liquid-cooled, Ultra Ethernet Transport ready switch designed for next-generation AI infrastructure. With 64 ports of 1.6Tbps Ethernet in a fixed 2U switch, the QFX5250 ...

Whether you need a 10G industrial switch for large-scale data networks or a compact solution for field operations, our range of switches ensures exceptional performance and durability.

With its 28 ports (4x 10GBase-X SFP+ slots, 24x 10/100/1000Base-T PoE+ ports according to IEEE 802.3at) this switch is suitable for cabling larger units in industrial environments as well as for in ...

Explore FS 10Gb Switches, designed to meet campus network access/aggregation needs, featuring comprehensive protocols, scalability & reliable redundancy.

To meet the needs of critical infrastructure networks, Actelis provides hardened and managed 10 Gigabit Ethernet switches with optional PoE.

Our rapidly expanding line of gigabit Ethernet Switches comes in multiple form factors - 3U and 6U VPX with up to 156 ports, 32-port Ethernet 10G Switches, all the way up to a rugged liquid-cooled 432-port ...

Ruijie's first submersible liquid-cooled switch deployed at large data center scale with high power consumption elimination, energy-saving and emission reduction.

The DynaNET 10G-01 is liquid cooled and has no vents nor moving parts, dramatically increasing reliability. Since it does not require any ventilation, the DynaNET 10G-01 is extremely compact and ...

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...
