

Discover robust network patch panels built for high-speed Ethernet. Get options compatible with Cat5e, Cat6, and Cat6A for 10G performance.

The Cable Matters 8-Port Cat6 Patch Panel future-proofs your network connection for 10-Gigabit Ethernet. It offers Cat6 performance in compliance with the TIA/EIA 568-C.2 standard and is ...

Featuring built-in, all-wire surge protection on each port, this panel eliminates the need for multiple protectors, saving both time and money. Designed for high-speed data, voice, and multimedia ...

Get the Black Box JSM114A CAT6 Surge-Protected Patch Panel. Built-in, all-wire protection on each port makes this a time and money saver.

Protect sensitive equipment and data lines from damaging lightning strikes, power surges, and electrostatic discharge. Built-in, all-wire protection on each port makes this panel a time and money ...

The patch panels are available as versions with the new surge protection and shield current monitoring functions. The integrated surge protection protects the devices and the application against sudden ...

The Modular Industrial Patch Panel (MIPP) combines both copper and fiber cable terminations and is designed for harsh environments, where its robust construction and high port density make it ideal for ...

An Ethernet patch panel can streamline your data transmission and network performance. Thankfully, our trueCABLE team has the perfect solution to achieve superior cable efficiency and ...

With CAT6 compliance, this patch panel supports high-bandwidth data, voice, and multimedia applications, enabling smooth operation for hubs, routers, switches, and other network equipment.

Get your network 10G ready and future-proof with Intellinet Cat6 Patch Panels. Network Patch Panels by Intellinet Network Solutions are manufactured to meet and exceed the highest quality standards. All ...
