

Swedish Telecom OPTO CFP transceivers are designed for use in 100 Gigabit Ethernet links over 10km single module fiber, and it compliant to the CFP MSA and IEEE 802.3ba 100GBASE-LR4.

Application Delivery FortiADC / FortiGSLB FortiSASE FortiClient / FortiClient Cloud Secure SD-WAN
Zero Trust Network Access (ZTNA)

100G QSFP28 LR4 LC 10Km, the module converts 4 input channels of 25Gb/s electrical data to 4 channels of LAN WDM optical signals and then multiplexes... - EN

The DarkLink(TM)-100G EDE is an enterprise-level encryptor designed to meet DoD Ethernet Data Encryption (EDE) specifications. DarkLink(TM)-100G EDE utilizes Secturion's MESH technology to set ...

100G 10KM CFP4 LR4 transceiver enables high-speed data transmission up to 10 kilometers, perfect for long-distance connections in data centers. - EN

The transceiver is optimized for low-power, high-bandwidth connectivity in telecom, cloud, and enterprise network environments. Fully compliant with CFP2 MSA and IEEE 802.3ba standards, it ...

The first line of defence for any network are its Security Routers & Firewalls. Our collection of industrial routers not only provides the most secure connections but can operate in the harshest of environments.

The STC-QSFP28-100KM-EZR is a high-performance 100G optical transceiver designed for ultra-long haul data transmission. Supporting transmission distances up to 100 kilometers over standard single ...

PacketFalcon supports security teams by accurately and losslessly recording network traffic at key nodes using Network TAPs, indexing and analysing it in real time, enabling rapid investigation of ...

Hybrid Cloud Security.

Swedish Telecom Opto is built for scale -- not single-click sales. We work with mid to large organizations, supporting network engineers, data center teams, and IT purchasers through long ...
