

Swiss Exported Single-Fiber Bidirectional OSFP

OSFP is a high-speed, high-density, hot-pluggable transceiver module used in data communication applications, targeting speeds of 400G, 800G, and even 1.6TB.

Compact small form-factor pluggable CSFP+ transceiver and a compact small form-factor CSFP+ transceiver supports network systems, especially those deploying single-fiber bidirectional ...

Flyover[®] panel cable systems utilize Samtec Flyover cable technology to route data above lossy PCB through Eye Speed[®] ultra low skew twinax cable, simplifying board layout and extending signal reach.

The CSFP2-B34 (43)-20 (I) compact small form-factor pluggable (CSFP) module supports dual 1G Ethernet channels over single-mode fiber (SMF) using bidirectional (BIDI) technology.

The module has eight pairs of single-mode fiber with an MPO-16 APC connector. It is compliant with IEEE 802.3 800GBASE-DR8 and OSFP MSA module requirements with integrated ...

The Octal Small Form Factor Pluggable (OSFP) Connector System provides single- or dual-port, 8- or 16-lane I/O connectivity with DAC, AOC, ACC and optical modules for high-density switch applications.

An OSFP-RHS cage has a lower height than an OSFP cage and makes use of a riding heat sink for cooling. The forward stop feature in an OSFP-RHS cage is shifted compared with an OSFP cage to ...

Our Electronics Products Product of the Year award- winning OSFP (Octal Small Form Factor Pluggable) cable assemblies are compatible with 25G/lane channel NRZ up to 112G/lane ...

OSFP optical modules include 400G SR8/DR8 and 800G DR8 /FR8 variants. They deliver low latency, high bandwidth, and built-in FEC for error-free transmission up to 10km.

Combined with strong electrical performance and broad system compatibility, TE OSFP connectors and cable assemblies deliver a balanced solution for today's high-density, high-power network ...
