

Swiss Offshore Optical Line Terminal 100G

FS - HPC, Data Center, Enterprise, Telecom

GP5810-08 OLT is a highly integrated, large-capacity XG (S)-PON OLT for operators, ISPs, enterprises, and campus applications. The product follows the ITU-T G.987/G.988 technical standard, and can be ...

The QSFP28 100G is the latest revolutionary standard in network connectivity. With an incredible data speed of 100 Gbps, this compact, high-density module meets the growing needs of data centres.

LONG DISTANCES DWDM versions of multiplexers can be applied and the line signal amplified using cost-efficient booster and pre-amp lifiers. Using this design, 3C-OTNS8600 can reach up to 200 km ...

Large stock in Belgium, linked to an efficient logistics center, allows us to ship to you quickly. Our products are compatible with all major brands. QSFP28 transceiver provides 100GBase-BX SR ...

Eoptolink's EOLQ-131HG-O-02 QSFP28 FR 100G Optical transceiver module are designed for use in 100 Gigabit Ethernet links over 2km single mode fiber. They are operating on 1311nm wavelength, ...

Our SDX 6000 Series of software-defined optical line terminals (OLTs) consists of open and disaggregated access devices that support a broad range of PON standards, including 10G Combo ...

With fewer components in the pluggable module, we can scale manufacturing volume and cost to the level of today's 10G SFP+ optics. Through silicon photonics and signal processing ...

Optical line terminal (OLT) ports supporting higher split ratios with CPON provide more efficient bandwidth sharing, resulting in cost savings for space, power and cooling at the hub.

The uplink supports multiple access rates including 100G, 40G, 25G, 10G, and GE. The S7500X-G OLT can achieve simultaneous Ethernet and PON access by adding standard GE/10GE/40G/100G ...
