

The direct-to-chip liquid cooling system, already operational at STT Bangkok 1, delivers targeted thermal management by circulating coolant directly to the compute components.

In single-phase immersive IT chassis, dielectric liquid cools the equipment. This can take place passively, via conduction and natural convection, or by actively pumping the liquid within the servers. Here, the ...

The direct-to-chip liquid cooling system, already operational at STT Bangkok 1, delivers targeted thermal management by circulating coolant directly ...

While Thailand is central to Nidec's cooling gear production, the company is also expanding in China and the Philippines to diversify its supply ...

The Data Center Liquid Cooling market in Thailand is experiencing notable growth, driven by the increasing demand for efficient cooling solutions in data centers.

While Thailand is central to Nidec's cooling gear production, the company is also expanding in China and the Philippines to diversify its supply chain. These locations will focus on ...

A new 2-MW data center in the heart of Bangkok's business district could be powered by regasified liquid natural gas (LNG) to create district cooling energy in its version of a lower-carbon microgrid.

This cooling methodology uses liquid cooling technology to ease the burden placed on air coolers by bringing liquid cooling to the rack and server level while operating within an air-cooled infrastructure.

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...

Explore our end-to-end liquid cooling solutions for AI, high-density IT, and sustainable thermal performance.

The two types of liquid cooling used on a large scale in the data center field are cold-plate and submerged liquid cooling. Other types such as spray cooling have not been deployed on a ...

In-depth research on 62 Thailand data center projects, 6.6GW reserve capacity analysis, liquid cooling technology special study. Yoohoon provides liquid cooled loadbank, CDU, intelligent busbar and ...
