Splice Tray Chip Type: ANT | Heat shrink | Micro heat shrink | Ribbon Heat Shrink

This fiber splice tray secures up to 16 mechanical splices or 24 single fusion splices. Adhesive backed fiber insert holders and assorted fiber optic cable ties included.

Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer. Organize fiber connections with ease.

The trays are engineered for use with indoor or outdoor splice hardware with both loose tube and tight-buffered optical cable designs. The metal-tray series consists of a rugged aluminum base and cover ...

Fiber Optic Splice Trays: Type - Fiber Splice Tray; Splice Type - Mechanical - Fusion; Length - Metric - 431.0 mm; Length - Imperial - 17.00 in; Capacity - Splices - 12 Mated Pair; Manufacturer Series - ...

These trays are typically installed within fiber optic enclosures and patch panels. They're compact, lightweight, and available with a variety of splice holding chips and cover options.

The trays are engineered for use with both loose tube and tight-buffered optical cable designs. Their generous size prevents induced attenuation due to fiber bending.

They are available in Legacy and LITE-GRIP® styles, each providing unique features and benefits to best fit the fiber management and splice capacity requirements of the closure. Both splice tray styles ...
