

Spectrum Ethernet switches enable operational efficiency with a wide variety of network operating system choices, including NVIDIA®; Cumulus®; Linux and Pure SONiC. Spectrum Ethernet switches ...

Developed specifically to withstand the harshest industrial environments, these switches offer the most flexible and scalable industrial Ethernet platform that grows with your network.

SEL ICON and SEL-2730M make use of small form-factor pluggable (SFP) transceivers for fiber optic communication. See the range of SFP data rate and distance options supported.

S8550-16Q8C is a high-performance switch of 16x 40Gb QSFP+ and 8x 100Gb ...

With the new Allen-Bradley Stratix 2100 line of unmanaged switches, you get copper and fiber (SFP) ports with 100 MB or 1 Gb speeds for increased network flexibility and performance.

They provide secure, reliable, and high-performance network connections in demanding environments and feature comprehensive security functions and IEC 61850 certification.

The 3U 56 Channel and 25Gbps VPX conduction and air-cooled Ethernet switch is an addition to our 10G technology in 3U and 6U configurations. The switch is configurable for system connectivity, ...

S8550-16Q8C is a high-performance switch of 16x 40Gb QSFP+ and 8x 100Gb QSFP28 ports which can be split to 4x 10G and 4x 10/25G respectively, loaded with hot-swappable and redundant power ...

Optimize networks with Westermo SFPs: Multimode, singlemode, BiDi & CWDM from 100 Mbit/s to 10 Gbit/s. Featuring DDM for real-time tracking. View all models.

FortiSwitch™ Rugged switches deliver all of the enterprise features, performance, and security of the trusted FortiSwitch secure, simple, scalable Ethernet solution.

If you need rugged, yet easy to use, switches that exceed the specifications of commercial switching products with industrial safety certification and approval for hazardous locations, you are in the right ...
