

Ventilation and electrical distribution box plus fire protection

ABB offers an innovative enclosure system for fire prevention, which is constructed of fireproof materials, features optimum technology and is available in a variety of economical designs.

Fire resistant enclosures and junction boxes are used to maintain electrical and electronic circuit integrity to emergency lighting, power and control cables in both "safe" non-hazardous and also hazardous ...

The ECU fire protection system was designed to meet new regulations, protecting domestic units and distribution boards from potential fire damage.

With a clear cover for easy monitoring, flame-resistant ...

Choose from our selection of hazardous location electrical boxes, including outlet boxes and covers, weatherproof outlet boxes and covers, and more.

Discover ventilated electrical junction boxes for indoor and outdoor use. Find waterproof enclosures with mounting panels and cable management.

With a clear cover for easy monitoring, flame-resistant materials, and effortless wall mounting, this breaker box is perfect for solar systems, EV charging stations, and more.

As a leading manufacturer of high-quality cable junction and connection boxes, as well as durable surface-mounted distribution boards, Spelsberg is especially well-qualified for development of fire ...

The IBC does permit the larger steel electrical boxes, but these boxes must all be installed in accordance with the installation instructions and listing limitations for the UL-Certified product being ...

Discover premium fire rated junction boxes engineered for maximum electrical safety, fire containment, and building code compliance. Advanced fire-resistant technology protects critical circuits while ...

Save time and installation costs with this factory-installed 115V/230V Electrical Control Box with DCV (Demand Control Ventilation) system.
