

Warranty for PAM4 Active Optical Modules

MaxLinear's highly integrated PAM4 DSPs offer superior link-margin performance and low power to enable 100G, 400G, 800G, and 1.6T optical interconnects inside the data center. Filter your results ...

The Active Optical Cables support 400G PAM4 applications and are available in standard lengths up to 100 meters including 1:2, 1:4 and 1:8 breakouts.

PAM4 is now well established and supported by a wide range of switch/router ASICs and optical modules. The first high volume generation of 400G client optical modules being deployed in ...

Semtech's Tri-Edge technology offers the only analog CDR solution for optical modules capable of meeting the low power, low cost requirements needed for data center PAM4 optical interconnects.

The Cisco's QDD-400G-VR4 Module (Figure 5) is a hot pluggable optical transceiver compliant with 400G Ethernet. The optical interface supports ...

Leveraging 200G/lane silicon photonics and cutting-edge PAM4 technology, our 1.6T OSFP DR8 modules--available in both Retimer and LPO versions--deliver exceptional performance with low ...

Credo's extensive optical portfolio includes DSPs for 50G, 100G, 200G, 400G, 800G and 1.6T PAM4 optical transceivers and active optical cables. Our products meet the most demanding requirements ...

Samtec's FireFly(TM) Micro Flyover System(TM) embedded and rugged mid-board optical transceivers take data connection "off board" for up to 28 Gbps per lane with a path to 112 Gbps PAM4 via optical ...

Nova 1.6T PAM4 DSPs enable 1.6T and 800G optical transceiver modules for AI/ML and next-gen cloud data center networks. Supports both Ethernet and InfiniBand applications.

Broadcom's Active Copper PHY portfolio enables DAC cable providers to build very low insertion-loss profile, ultra-low latency, ultra-low power cables for 100G/400G/800G/1.6T hyperscale/AI networks ...

This CEI-224G-Linear demonstration shows test chip silicon sending a PRBS13Q PAM4 212 Gbps signal through a 1.6T DR8 OSFP linear optical module via Module Compliance Board.

This product is a 400Gb/s QSFP112 optical module designed for 0.5Km optical communication applications. The module converts 4 channels of 100Gb/s (PAM4) electrical input data to 4 channels ...

Warranty for PAM4 Active Optical Modules

Providing industry-leading limited lifetime warranty. Refunds will be received about 5 business days after the receipt of returned items. Items in stock for replacement can be shipped within 1 business day. ...
