

GIGALIGHT provides 100G, 200G, and 400G pluggable digital coherent optical transceiver modules (DCO) for data center interconnection (DCI), 5G backhaul, metro telecommunication, and other long ...

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

The OSFP 2x200G FR4 Transceiver is a highly integrated 2x200G transceiver focused on reach, bandwidth, density and cost for datacenter deployments. The module has 8 independent electrical ...

Sate Optics offers 1.6T OSFP optical transceiver modules with 8x200G architecture, EML & silicon photonics options, compliant with IEEE802.3dj and OSFP MSA. Ideal for 1.6T Ethernet, AI/ML ...

This category covers 200G, 400G, and 800G optical modules based on QSFP56, QSFP-DD, and OSFP form factors, supporting short-reach and high-density interconnect applications such as SR4 and SR8.

200G 400G 800G Transceivers are the latest generation of optical modules that enable high-speed data transmission over fiber optic cables - AscentOptics.

The newly formed QSFP-DD team plans to increase the number of channels to eight, with up to 25 Gbps per channel through NRZ modulation or up to 50 Gbps per channel through PAM4 modulation, ...

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical ...

Find reliable OSFP module wholesale suppliers with bulk pricing, verified vendors, and fast shipping. Discover top-tier optical modules for data centers and networking.

Boost network performance with 200G optical transceivers. Designed for data centers, 5G, and cloud infrastructure, our QSFP56 modules deliver low latency, high reliability, and seamless compatibility.
