

High-performance XFP modules for 10G FC & Ethernet and legacy telecom standards optimized for long-range connectivity.

The connectors of XFP and SFP+ fiber transceivers are both LC duplex. Therefore XFP and SFP+ modules with the same protocols, wavelength, and other specifications can interoperate via a duplex ...

OmniTron's Optical SFP, SFP+ and high-power XFP Transceivers enable flexible fiber connectivity with Media Converters, Switches and Multiplexers.

Online shopping. w/24h-delivery, 7Days & Refund Guarantee. CE, RoHS and ISO9001 Certified. SFP+ Cables, QSFP+ Cables, MiniSAS Cables, XFP Cables, CX4 Cables and Fiber Optic Transceivers.

Find 10G XFP optical and copper transceivers that meet your network and system needs, including a variety of tunables, tuning modules, and fiber jumper cables.

The XFP (10 gigabit small form-factor pluggable) is a standard for transceivers for high-speed computer network and telecommunication links that use optical fiber.

The XFP (10 Gigabit Small Form Factor Pluggable) is a standard for modules for high-speed network and telecommunication links that use optical fiber. XFP modules are hot-swappable, ...

LongXing's XFP transceiver is a high performance, cost effective modules for serial optical data communications applications specified for signal rates of 9.95 Gb/s to 11.3 Gb/s.

Our collection includes interchangeable, hot-swappable, and protocol-independent SFP modules suitable for copper media, multimode optical fiber, and single-mode optical fiber.

Fibertronics' XFP transceivers (small form factor pluggable) are standard for high-speed computer network & telecommunication links that use optical fiber.
